

Park Street and Frogmore Society

Established to promote interest in local
history and nature

The Society organises up to six open meetings a year for members and the general public. Each of which includes a presentation from an invited speaker on a topic of historical or nature interest. Members are kept informed by regular Newsletters and Journals.

The society archive includes historical documents, images, maps, and records together with recorded memories of residents past and present. Help can be given to those researching local and family history and we encourage the sharing of memories and items of local interest.

Membership Application form
